

Who are Briar Chemicals?

We are based in Norwich and currently employ over 220 people. We were first established in 1956 when our name was May & Baker.

What do we do?

We produce crop protection products that help to keep crops healthy and veterinary products that protect sheep from diseases and supply these to companies all over the world.

Where do our products go?

We can pack our products onsite and send them to countries including Australia, Brazil, Canada, Finland, France, Germany, Japan and USA.

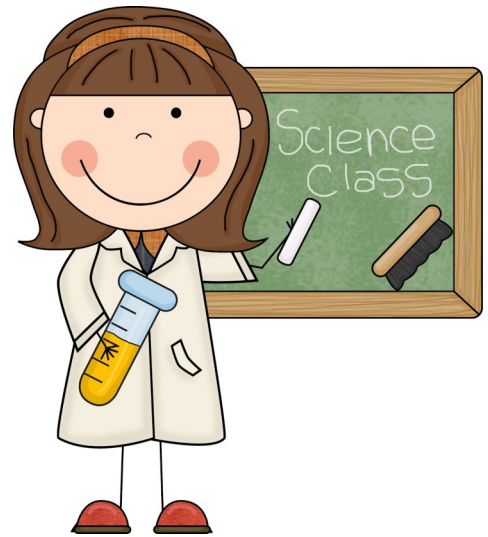

Who uses our products?

Farmers use our products to help keep their animals healthy and protect their crops including wheat, rice, vegetables and fruit.

Interesting Facts About Briar Chemicals

- We have our own energy and waste facilities so we can generate power for our buildings and help look after the environment
- Our site is 114 acres, that's the same size as nearly 57 NCFC Carrow Road football pitches
- We have a Fire Safety Team and two Fire Engines onsite with our own water supply for the engines
- The fire water tank holds 3600 cubic meters, that's enough to fill one and half Olympic sized swimming pools

- We have a themed Poetry Competition every year for all local schools to enter. You could win a prize of £100 and also £500 for your school!
- Local school children have planted wild flowers, hedgerows and trees and made bird boxes for around the site

Making Science learning fun!

If you have any questions or you would like to tell us about the exciting science fun your school gets involved with we would love to hear from you.
