

BRIAR CHEMICALS LIMITED
MAJOR ACCIDENT PREVENTION POLICY (MAPP)

As a contract chemical manufacturing company, Briar Chemicals Limited acknowledges that the nature of certain activities carried out at its site could give rise to major accident hazards for employees, contractors, visitors, the general public and the environment in its totality.

We are committed to ensuring that these activities are undertaken in such a manner as to prevent accidents wherever possible and in any case to ensure that risks associated with those activities are as low as reasonably practicable (ALARP). In particular, we are committed to operating in accordance with the site's major accident prevention policy document (MAPP).

Specifically, Briar Chemicals Limited is:

- committed to regularly reviewing and updating its major accident prevention policy to ensure that the policy remains current and relevant,
- committed to the provision of the necessary resources to enable the full implementation of this policy,
- committed to the provision of sufficient supervision, information, instruction and training for its employees, and where relevant others who may become involved in, or affected by its activities,
- committed to operating in accordance with written procedures established within the framework of an integrated QHSE management system,
- committed to monitoring compliance with this policy,
- committed to investigating non-compliances with the policy and taking appropriate action to prevent continued non-compliance,

It is the responsibility of the Director to ensure the above commitments are adhered to, and the necessary systems are developed and implemented to ensure compliance.

A handwritten signature in black ink, appearing to read "S. Rashid", is written over a faint, illegible printed name.

S. Rashid:

CEO, Briar Chemicals Limited

Date: 10/7/20
