

BRIAR CHEMICALS LIMITED ENVIRONMENTAL POLICY

Briar Chemicals Limited is committed to conducting all chemical manufacturing, storage, handling and distribution activities in a manner that protects the environment by preventing pollution, minimising environmental impacts, considering biodiversity, resource availability and ensuring that our legal and compliance obligations are identified, fulfilled and effectively managed through our environmental management system in accordance with the requirements of BS EN ISO 14001:2026.

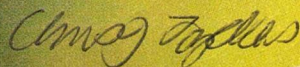

We are committed to continually improving our environmental performance through:

- Identifying environmental aspects to enable assessment and control of significant environmental impacts, both internally and externally giving consideration to the lifecycle of our activities, products and services
- Learning from accidents and incidents through effective root-cause investigation and implementation of corrective actions
- Maximising opportunities for reuse and recycling to reduce waste, and ensuring any waste generated is managed via the least environmentally damaging route
- Monitoring our use of resources including energy, raw materials and water, and seeking opportunities to minimise their consumption
- Effectively monitoring and measuring greenhouse gas emissions and discharges to air and water to ensure they are controlled, reduced where possible and remain within legal and environmental limits
- Improving energy efficiency and considering climate related risks and opportunities to support climate change mitigation and adaptation

Environmental objectives, performance data and compliance obligations will be monitored and evaluated regularly to ensure that this policy remains effective, relevant and aligned with the needs of our organisation and stakeholders.

Senior Leadership is committed to ensuring this policy is upheld through clear accountability and the provision of appropriate resources. This policy will be communicated to all employees and contractors and made available to the public on request.
