

BRIAR CHEMICALS LIMITED QUALITY POLICY

As a chemical manufacturing company, the objective of Briar Chemicals Limited is to be the preferred supplier for our customers.

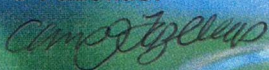

To achieve this, we will:

- Regularly review customer requirements and expectations, and continually strive to improve our performance;
- Ensure customer requirements and compliance obligations are met through effective planning, control and verification of our processes;
- Select, train and develop all employees to ensure they are competent and capable in their roles;
- Encourage all employees to actively contribute to continual improvement of our processes and overall business performance;
- Establish annual quality objectives and targets, monitoring progress to ensure continual improvement of our performance;
- Develop, implement and maintain a quality management system certified to BS EN ISO9001:2015.

Quality objectives and performance data will be monitored and evaluated regularly to ensure this policy remains effective, relevant and aligned with the needs of our organisation and its stakeholders.

Senior Leadership is committed to upholding this policy by ensuring clear accountability, providing adequate resources and communicating the policy to all employees and contractors.
